

# EXCITING NEWS!!

## Comfort Keepers and Caregiver Canines® Announce A Strategic Partnership Aimed At Reducing Loneliness.

Comfort Keepers, an in home Senior Care Company and Caregiver Canines®, a non profit visiting therapy dog program have partnered to bring certified therapy dogs into the homes of lonely seniors being cared for by Comfort Keepers.

In business for 17 years, Comfort Keepers knows many seniors greatly miss their beloved pet companions. They are no longer able to care for their own pets due to financial and physical hardships. Visits from the Caregiver Canines® allow the client to form a bond with a dog and their handler.

Therapy dog visits help improve the overall well being of seniors by decreasing feelings of loneliness and isolation. Comfort Keeper's clients will be carefully matched with a certified therapy dog and handler for one on one weekly visits in the comfort of their home, providing great comfort for the client and their family. 🐾
